AACN REVIEW COURSE

Learning Outcome:

After completing the Ambulatory Care Nursing Certification Review Course, the participant should be able to use the presentation to reinforce knowledge of ambulatory care nursing, self-assess the content areas where they need further review, and use the content presented as preparation for taking the certification exam.

Course Overview

This course provides an overview of the potential content that may be tested on the ambulatory care nursing certification exam. It is a valuable opportunity to reinforce your knowledge of ambulatory care, identify your weak areas, and learn new information. Interact with nationally recognized faculty and colleagues to discuss information related to ambulatory care practice and the certification exam.

Course content is based on the test content outline for the ambulatory care nursing certification exam. All topics will be offered in an interactive, case problem-solving style to enhance critical thinking.
