

Voiding Cystogram (VCUG) With Oral Sedation (9:30AM)

Your son/daughter is scheduled for a VCUG with sedation.

Your child needs to arrive in the Outpatient Registration Department by 8:15AM.

Please park in the South Parking Garage. Come in the South Entrance of the hospital. Go to the Outpatient Registration desk. After you are registered you will be escorted to the Pediatric Special Procedure Area and will be greeted by one of the RN's.

Do not give your child anything to eat or drink after midnight.

Your child will be assessed by one of the sedation nurses and one of our Pediatric hospitalists (an in house pediatrician). You will be asked to sign a consent for the procedure.

Your child will be given the sedation as ordered by the doctor. Approximately 15-20 minutes after your child is sedated, we will call X-Ray to make sure they are ready for your child. A foley catheter will be inserted by the RN and then we will go to X-Ray for the procedure. Your child will then return back to the Pediatric Special Procedure Area to recover from the sedation medication.

When your child is able to tolerate something to eat and drink, he/she will be given discharge instructions and will be discharged to home.

Please make sure that you bring the order for the test prescribed to you by your physician.

If your child has a fever, cough, or cold please call and reschedule when your child is healthy. We will not do the VCUG if your child has had a urinary tract infection within 2 weeks of the procedure. If you have any Questions call 1-630-527-3027.
Thank You!
